Your child is welcome here!

Growing together happily

In our small, familiar environment, children from infants to school age feel very happy and comfortable. Girls and boys of very different backgrounds grow together here and establish friendships. Children with developmental delays and mental disabilities are also welcome and receive special support. In our colourful daycare life, we allow plenty of space for the cultural and religious backgrounds of our families. This includes good communication – we speak, among other languages, Afghan, Arabic, Polish, Russian and Aramaic.

Many exciting activities

As a certified Bewegungskita (Exercise Daycare Centre), we have specially trained instructors who can motivate your child to participate in many activities: in our extensive outdoor area, doing gymnastics and swimming, as well as in our specially equipped exercise rooms. Our health programme also includes a tasty, vitamin-rich lunch, which is freshly cooked daily in our own kitchen. Feel free to come by – we are looking forward to your participation in our Kita life!
